Investment Process Key Elements

Opportunistic Sector Allocation

We frame relative value across a matrix of more than 50 market subsectors using historical excess returns and volatility.

Dynamic Position Limits Based on Duration

The concepts of contribution to duration (CTD) and duration times spread (DTS) provide a common lens to evaluate relative risk and potential volatility.

Security Selection Integrity

Research teams partner with portfolio managers to evaluate sectors, issuers, and securities using a consistent Fundamentals-Valuation-Tactics framework.

Ongoing Quantitative Analysis

We seek to ensure primary dimensions of risk (key rates, sector, issuer/securities) are consistent across each strategy.

The information shown is derived from a representative account deemed to appropriately represent this investment strategy and is for illustration purposes only. Performance is not a consideration in the selection of the representative account. Portfolio characteristics are subject to change periodically and may not be representative of your account's current characteristics. Sector and quality distributions for both the portfolio and the benchmark are calculated using the Bloomberg Barclays index methodology. Sector allocations are subject to change; securities within a sector may no longer be held in your account's portfolio. If shown, the Top Ten Credit Holdings, which exclude cash and cash equivalents, do not represent all securities purchased, sold, or recommended for clients; individual account holdings will vary. There is no assurance that any of these securities will be purchased or held in the future and it should not be assumed that investments in the securities identified were or will be profitable. A complete list of holdings for the previous 12 months is available upon request.

©2021 The PNC Financial Services Group, Inc. All rights reserved.

Firm Description: PNC Capital Advisors, LLC (PCA, a registered investment adviser and direct wholly owned subsidiary of PNC Bank, N.A. (PNC Bank) and indirect wholly owned subsidiary of The PNC Financial Services Group, Inc., offers investment management services with respect to taxable fixed income securities for a variety of clients. The firm's list of composite descriptions is available upon request.

Significant Events: As of December 1, 2019, PNC Bank migrated the Municipal Investment Group and the Advantage Equity Portfolio Management Group from PCA to the PNC Investment Strategy & Services division of PNC Bank's Asset Management Group. As of November 15, 2019, PCA transitioned away, through acquisition, its International Growth Equity, Select Small Cap Equity, and Structured Equity teams. The transaction also included the reorganization of PNC Bank's family of mutual funds, formally managed by PCA into corresponding third party mutual funds.

Compliance Statement: PNC Capital Advisors, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. PCA has been independently verified for the period beginning September 29, 2009 through December 31, 2016 by Ashland Partners and Company, LLP, and for the periods January 1, 2017 through December 31, 2018 by ACA Performance Services, LLC. A firm that claims compliance with GIPS standards must establish policies and procedure for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Composite Description: The investment objective of the Enhanced Cash Fixed Income Composite is to seek current income while preserving capital and liquidity and a relatively stable market value as measured by the volatility of the ICE BofAML US 3-Month Treasury Bill Index. Composite accounts may invest in obligations issued or guaranteed by the U.S. Government and its agencies, repurchase agreements, commercial paper, short-term investment grade corporate obligations, and other cash equivalent investments. Portfolio dollar-weighted average maturity is normally expected to be less than 6 months, but this may vary in response to market conditions. The Enhanced Cash Fixed Income Composite was created on June 30, 2019 with a composite inception date of June 30, 2014.

Benchmark: The benchmark for the composite is the ICE BofAML U.S. 3-Month Treasury Bill Index. The ICE BofAML U.S. 3-Month Treasury Bill Index is an unmanaged index that measures returns of three month U.S. Treasury Bills.

Minimum Account Size: All discretionary accounts in excess of \$20 million have been included in the composite.

Calculation of Results: Accounts are valued using trade date accounting and are denominated in U.S. dollars. Performance results reflect the reinvestment of interest, dividends, and realized capital gains and include cash, cash equivalents, convertible securities, and preferred securities, if applicable. Dividends and interest are recorded on an accrual basis and are gross of all applicable foreign withholding taxes, if any.

Performance results are presented on a gross and net basis and include the reinvestment of all income. The net results reflect the deduction of 0.15%, representing the maximum advisory fees charged to client accounts in the Enhanced Cash Composite. The actual fees paid by a client may vary based on assets under management and other factors.

Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. **Past performance is no guarantee of future results.**

Dispersion: The dispersion of annual return is measured by the standard deviation across asset-weighted portfolio returns represented within the composite for a full year. For periods during which five or fewer accounts were included in the composite for a full year, standard deviation is not disclosed because it is not considered meaningful.

Fee Schedule: The management fee schedule is as follows: 0.15% on all assets. The actual fees paid by a client may vary based on assets under management and other factors.
