Composite Description: The investment objective of the Core Plus Fixed Income Composite is to seek current income as well as appreciation of capital by investing primarily in a portfolio of investment-grade fixed income securities. Accounts in this composite typically hold high yield debt securities. For comparison purposes this composite is measured against the Barclays Capital U.S. Aggregate Index. Results from all accounts have been continuous from the first full month under management to present or last full month under management. The Core Plus Fixed Income Composite was created December 31, 2002. The current portfolio management team has managed the accounts comprising the composite since September 29, 2009 when PNC Capital Advisors, Inc. merged with Allegiant Asset Management Company ("Allegiant"). Effective February 17, 2015, Sean Rhoderick, CFA, assumed the role of Chief Investment Officer for Taxable Fixed Income from Andrew Harding. Mr. Harding had served as Chief Investment Officer for Taxable Fixed Income of PNC Capital Advisors, LLC, and its predecessor firms since 2000. Prior to the merger, PNC Capital Advisors, Inc. maintained the PNC Core Plus Bond Composite and Allegiant maintained the Allegiant Core Plus Fixed Income Composite. Upon merger of the two firms, the PNC Core Plus Bond Composite was determined to be the survivor composite because it best represented the investment strategy and process to be employed going forward. In addition, the PNC Core Plus Bond Composite was renamed to the PNC Core Plus Fixed Income Composite for consistency in naming convention.

Benchmark: The benchmark for the composite is the Bloomberg Barclays U.S. Aggregate Bond Index. The Bloomberg Barclays U.S. Aggregate Bond Index is an unmanaged index composed of securities from the Bloomberg Barclays Government/Corporate Bond Index, Mortgage-Backed Securities Index and the Asset-Backed Securities Index and represent the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market.

Minimum Account Size: All discretionary accounts in excess of \$5 million have been included in the composite. Effective July 1, 2010, the minimum account size is \$10 million.

Calculation of Results: Accounts are valued using trade date accounting and are denominated in U.S. dollars. Performance results reflect the reinvestment of interest, dividends, and realized capital gains and include cash, cash equivalents, convertible securities, and preferred securities, if applicable. Dividends and interest are recorded on an accrual basis and are gross of all applicable foreign withholding taxes, if any.

Performance results are presented on a gross and net basis and include the reinvestment of all income. The net results reflect the deduction of 0.57% for the period prior to March 1, 2008; 0.40% for the period of March 31, 2008, to September 30, 2009; 0.45% for the period of October 1, 2009, to June 30, 2010; 0.40% for the period of July 1, 2010 to March 29, 2012, and 0.35% thereafter, representing the maximum advisory fees charged to client accounts during the respective periods in the Core Plus Fixed Income Composite. The actual fees paid by a client may vary based on assets under management and other factors. **Past performance is no guarantee of future results.**

Significant Cash Flows: As of January 1, 2012, PNC Capital Advisors, Inc. defines a significant cash flow for the portfolios of the Core Plus Bond Fixed Income Composite as one or more external cash flows during the month equaling an absolute value greater than 10% of the portfolio's assets at the beginning of the month.

Dispersion: The dispersion of annual return is measured by the standard deviation across asset-weighted portfolio returns represented within the composite for a full year. Prior to October 1, 2009, the dispersion of annual return was calculated across equal-weighted portfolio returns. For periods during which five or fewer accounts were included in the composite for a full year, standard deviation is not disclosed because it is not considered meaningful.

Fee Schedule: The management fee schedule is as follows: 0.35% on first \$50 million, 0.25% on next \$50 million, 0.20% on next \$100 million, and 0.15% on anything over \$200 million. The actual fees paid by a client may vary based on assets under management and other factors.
