

Intermediate Municipal Bond

Fourth Quarter 2017

Investment Objective

The Intermediate Municipal Bond Composite seeks to maximize current income exempt from federal income tax consistent with the preservation of capital. To achieve this objective, the composite focuses on intermediate-term municipal securities with maturities ranging from three to 15 years.

Investment Philosophy

We believe the integration of fundamental credit research and analysis, market experience, attention to execution and continuous performance review can provide investors with competitive risk-adjusted returns relative to benchmark and peers.

Investment Process

Our disciplined investment process sets the foundation for risk management and excess returns.

- Integrated approach to portfolio and operational risk management
- Proprietary security selection criteria
- Constant monitoring of portfolio performance attribution
- The establishment of a transparent agreement between our investment management team and client investors

Composite Description: The investment objective of the Intermediate Municipal Bond Composite is to seek current income that is exempt from federal income tax, in keeping with conservation of capital by investing in portfolios of municipal securities with average maturities of five to ten years. For comparison purposes the composite is measured against the S&P Municipal Bond Intermediate Index. As of January 1, 2005, this composite was no longer being compared against the Lipper Intermediate Municipal Bond Fund Index, which was shown as a secondary benchmark.

The S&P Municipal Bond Intermediate Index is utilized for comparison purposes beginning January 1, 2004. Prior to January 1, 2004, the composite was measured against the Lehman Brothers 7-Year G.O. Index. The benchmark was changed to better reflect the management style of the composite. Prior to December 31, 2007, the Intermediate Municipal Bond Composite was known as the Intermediate MAP Composite. The Intermediate Municipal Bond Composite was created January 1, 1999.

Benchmark: The benchmark for the composite is the S&P Municipal Bond Intermediate Index. The S&P Municipal Bond Intermediate Index, formerly referred to as the S&P/InvestorTools Municipal Bond Intermediate Index, is a broad, market value-weighted index that seeks to measure the performance of U.S. municipal bonds with maturities of 3 to 15 years.

Minimum Account Size: All discretionary accounts in excess of \$1 million have been included in the composite. Prior to January 1, 2009 the minimum account size for this composite was \$1.9 million.

Calculation of Results: Accounts are valued using trade date accounting and are denominated in U.S. dollars. Prior to November 2004, settlement date valuation was used to calculate performance. Performance results reflect the reinvestment of interest, dividends, and realized capital gains and include cash, cash equivalents, convertible securities, and preferred securities, if applicable. Dividends and interest are recorded on an accrual basis.

Performance results are presented on a gross and net basis and include the reinvestment of all income. Prior to January 1, 2011, the net results reflect the actual net advisory fees charged to client accounts in the Intermediate Municipal Bond Composite. Effective January 1, 2011, the net results reflect the deduction of 0.25%, representing the maximum advisory fees charged to client accounts in of the Intermediate Municipal Bond Composite. The fees paid by a client may vary based on assets under management and other factors. Past performance is no guarantee of future results.

Significant Cash Flows: As of January 1, 2012, PNC Capital Advisors, LLC defines a significant cash flow for the portfolios of the Intermediate Municipal Bond Composite as one or more external cash flows during the month equaling an absolute value greater than 20% of the portfolio's assets at the beginning of the month.

Dispersion: The dispersion of annual return is measured by the standard deviation across asset-weighted portfolio returns represented within the composite for a full year. For periods during which five or fewer accounts were included in the composite for a full year, standard deviation is not disclosed because it is not considered meaningful.

Fee Schedule: The management fee schedule is as follows: 0.25% on all assets. The actual fees paid by a client may vary based on assets under management and other factors.
