

Large Cap Advantage Concentrated Equity

Third Quarter 2017

Investment Philosophy

We believe earnings drive stock prices. Therefore we focus on companies that we believe will exceed consensus earnings estimates. We buy companies with:

- The ability to exceed consensus earnings estimates
- Stable to improving fundamentals
- Attractive valuations

We buy these companies in a concentrated, 30-name portfolio to provide exposure to the highest-ranked stocks across the core, growth, and value models.

Investment Process

Our investment process: a rules-based process focused on positive earnings surprise. The objective is to build a concentrated portfolio consisting of the highest-ranked stocks in the Advantage core, growth, and value models without portfolio constraints. This product is intended to be used as an alpha source.

1. Begin with aggregated portfolio holdings of Advantage core, growth, and value
 - Approximately 150 stocks
1. Rank security set
 - Using the base (core) multi-factor model, rank all current holdings
2. Identify 30 top-ranked securities
 - The 30 top-ranked stocks will be selected for inclusion in the portfolio
3. Portfolio construction and monitoring
 - Each stock will be weighted equally in the portfolio
 - Holdings will be reassessed quarterly to minimize turnover
