**Composite Description:** The investment objective of the Short Intermediate Municipal Bond Composite is to seek a high level of interest income that is exempt from regular federal income tax as is consistent with relative protection of capital by investing in portfolios of municipal securities with average maturities of one to less than five years. For comparison purposes the composite is measured against the S&P Municipal Bond Short Intermediate Index beginning January 1, 2004. Prior to December 31, 2007, the Short Intermediate Municipal Bond Composite was known as the Short Intermediate MAP Composite. The Short Intermediate Municipal Bond Composite was created April 30, 2001.

**Benchmark:** The benchmark for the composite is the S&P Municipal Bond Short Intermediate Index. The S&P Municipal Bond Short Intermediate Index, formerly referred to as the S&P/InvestorTools Municipal Bond Short Intermediate Index, is a broad, market value-weighted index that seeks to measure the performance of U.S. municipal bonds with maturities of 1 to 8 years.

**Minimum Account Size:** All discretionary accounts in excess of \$1 million have been included in the composite. Prior to January 1, 2009, the minimum account size for this composite was \$1.9 million.

**Calculation of Results:** Accounts are valued using trade date accounting and are denominated in U.S. dollars. Prior to November 2004, settlement date valuation was used to calculate performance. Performance results reflect the reinvestment of interest, dividends, and realized capital gains and include cash, cash equivalents, convertible securities, and preferred securities, if applicable. Dividends and interest are recorded on an accrual basis.

Performance results are presented on a gross and net basis and include the reinvestment of all income. Prior to January 1, 2011, the net results reflect the actual net advisory fees charged to client accounts in the Short Intermediate Municipal Bond Composite. Effective January 1, 2011, the net results reflect the deduction of 0.25%, representing the maximum advisory fees charged to client accounts in of the Short Intermediate Municipal Bond Composite. The fees paid by a client may vary based on assets under management and other factors. Past performance is no guarantee of future results.

**Significant Cash Flows:** As of January 1, 2012, PNC Capital Advisors, LLC defines a significant cash flow for the portfolios of the Short Intermediate Municipal Bond Composite as one or more external cash flows during the month equaling an absolute value greater than 20% of the portfolio's assets at the beginning of the month.

**Dispersion:** The dispersion of annual return is measured by the standard deviation across asset-weighted portfolio returns represented within the composite for a full year. For periods during which five or fewer accounts were included in the composite for a full year, standard deviation is not disclosed because it is not considered meaningful.

**Fee Schedule:** The management fee schedule is as follows: 0.25% on all assets. The actual fees paid by a client may vary based on assets under management and other factors.
